Deseos design wants to design and develop producible, attractive and functional products for commercial success and make the world around us better at the same time by introducing sustainability. With innovation, creativity and systematically working we can create extra value for our clients. Deseos Design combines an extensive experience in European industrial design with the knowledge of Australian resources. Info and portfolio available at www.deseosdesign.com or contact Wilma van Boxtel by email wilma@deseosdesign.com or phone +61 (0)8 9384 6610

Bedshed

Clarecraft Jarrah

Chanelle is created from EST-board, Engineered Solid Timber, made of a plantation pine core and both sided layers of 4mm hardwood glued together with PVA glue. The benefit for the designer is you can use modern lines and minimise the use of hardwood.

Estilo Australia

CHANELLE

ZEOPOD
nature inspired

Zeopod poufs are eco-friendly furniture pieces made from Zeoform, a 100% biodegradable plastic with an eco-foam cushion in an eco certified wool cover.
